PROFESSIONAL SUMMARY

Motivated BCA graduate and aspiring MCA student with skills in HTML, CSS, JavaScript, Python, SQL, React.js, Flutter, and Flask. Gained hands-on experience through academic projects and a **Full Stack Development Internship at Zephyr Technologies**, with a passion for building user-friendly applications and continuously learning modern technologies.

PROJECTS

Portfolio Website – Built using React.js, HTML, CSS, and JavaScript

Designed and developed a responsive personal portfolio website to showcase projects, technical skills, certifications, and contact information. Deployed on Vercel.

SecureMe – Women Safety Management System - Built using Flutter and Dart

Developed a cross-platform mobile application focused on women's safety with a responsive user interface, secure user management, and emergency support features to enhance personal safety.

Online Voting System - Built using Python, Flask, MySQL, HTML, CSS, and JavaScript

Designed and developed a secure online voting platform featuring voter registration, election and candidate management, role-based authentication, and automated result generation using Flask and MySQL.
